RE: Kari & Jerry

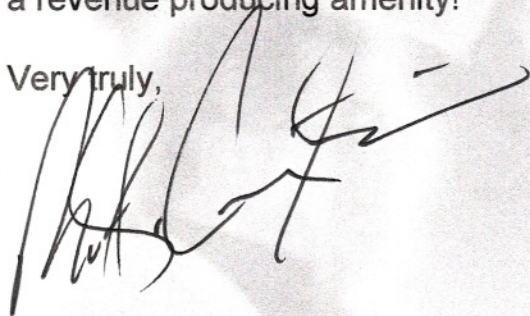

To Whom It May Concern:

It is a genuine pleasure to extend my highest recommendation as to the quality and complete professionalism of the musical duo "**Kari & Jerry.**" During the mid part of 2001, I began traveling to Las Vegas almost on a weekly basis. After the first time I heard this fine duo, my hotel choice was based *solely* on the opportunity to hear Kari & Jerry perform each night of my stay.

These fine people are long-time professionals in the music business with a vast repertoire that will more than satisfy the musical taste of any patron. Moreover, through the effective usage of quality digital background to support *their* live music skills, they are able to present a state-of-the-art sound of a much larger group. In essence, the sound of a five piece group at the much more reasonable price of a duo!

On the strength of my professional credentials, (11 CDs, 16 books, 6 videos) I would strongly urge an employer or entertainment manager with an eye toward **increased revenue and guest satisfaction** to quickly seize any opportunity to present this super high quality duo, as they are a revenue producing amenity!

Very truly,

Robert Conti
